## THE TENEMENT HOUSE HORROR.

Boston, Sept. 18.—The occupants of the tenement house 128 Gold street, burned last night, were: On the first floor an aged couple whom no one in the vicinity seems to have known, and one Gillespie and wife; on the second floor, a German family consisting of father and mother and three children, named Pfleiffer; on the third floor, Ferdinand Munth, his wife and two children, and George Holdried, wife and two children; making fifteen persons asleep in the house when the incendiary kindled the fire. When the fire was discovered by a policeman at a quarter to 12, the flames were breaking out at the front door, having burned through the stairs, making them impassable. Smoke was rolling up the narrow staircase and affected the inmates who, before the firemen could arrive with their ladders, had either leaped from the windows to the roof in the hope of safety or dropped suffocated in the halls.

The list of dead comprises five, which number may be increased to seven or eight.

The old couple on the first floor made their escape and were not heard of during the night.

Gillespie's family escaped with the exception of the wife and mother. The latter fifty years old, might have escaped by walking only about six feet, but became bewildered and swooned in her room. She was found by the firemen in an apparently dying condition and was taken to the station with the other victims of the fire. Her injuries are terrible burns, external and internal.

Rose Pfleiffer, aged 23, was found in the ball on the second floor. Mrs. Pfleiffer and the children jumped from the window and were but slightly hurt, but Pfleiffer's father was lost.

M. Croth, on the third floor, lifted his son Charlie, aged fourteen, out of the window and allowed him to drop to the ground, a distance of forty feet, and then instructed his wife and daughter Rose to jump, which they did.

Last of all he himself jumped to the ground, and in falling met instant death.

Mrs. Mereth is at the city hospital with fractures of both legs and one arm, and her face is bruised beyond all recognition. Her daughter Rose sustained no serious injury, but Charles is badly hurt.

Holdried took his wife to the roof and then went down stairs, where he was caught by the flames and burned probably fatally. Mrs. Holdried's body was charred beyond recognition, was found on the roof. Charles Holdried's son is at the hospital internally injured from jumping to the ground, and has an arm broken.

GUETING TO HANG.

Indianapolis, Sept. 18.—The supreme court refused to reverse Gueting's sentence. Public opinion approves the action of the court. Gueting will hang to-morrow.

## MURDERED.

Eagle Pass, Tex., Sept. 18.—Tom Ford, a government treasurer at Fort Duncan, returning from the Mexican independence anniversary celebration in Piedras Negras, Mexico, was murdered in the outskirts of the town.

THE FALL RIVER TROUBLES.

Fall River, Mass., Sept. 18.—A special meeting of the board of aldermen was called by Mayor Lindsey this forenoon to act upon the renewed request of City Marshal Brigham, that immediate action be taken for the increase of the police force.

A motion was made to add 100 men to the police force, but as two democratic aldermen, although notified of the meeting, were absent and the third immediately left the meeting the board was unable to transact the business for which they were called. The city is at the mercy of the strikers. The committee on police meet this afternoon and will recommend that the police be increased from 70 to 100 men for the remainder of the year.

UNCLE SAMMY TILDEN could make himself sold in the south by sending about \$50,000 to the yellow fever sufferers.

OLD DICK THOMPSON declares that the republicans will fry Indians next year. RICHARD, we fear, is in his dotage.

BEN BUTLER held another convention yesterday and again unanimously nominated himself for governor of Massachusetts. The widow seems to be a little less coy than she used to be.

It is evident that the Tammany bolt in New York will not be formidable. ROBINSON's election by a handsome majority is pretty generally conceded by eastern politicians.

It is said that SHERMAN and BLAINE have formed an alliance, offensive and defensive, against GRANT. At present the "boon" is with BLAINE because he wasn't whipped clear out of his boots in Maine, while JOHN SHERMAN, having been snubbed by SHAGHAN CONKLING's convention, is not "booming" at all. The probability is that both of these astute statesmen will find themselves left out in the cold after the New York and Ohio elections.

VOORHEES ON SHERMAN.

Senator VOORHEES's recent speech at Hamilton, O., showed up the contradictory and financial record of JOHN SHERMAN in a way that must heartily despise. Mr. VOORHEES read an extract from SHERMAN'S famous letter, advising the payment of the 5-20 bonds in greenbacks, as follows:

"My construction of the law is the result of careful examination, and I feel quite sure an impartial court would confirm it, if the case could be tried before a court."

"I think the bondholder violates his promise when he refuses to take the same kind of money he paid for the bonds. If the bondholder can legally demand only the kind of money he paid, then he is a repeater and an extorter to demand money more valuable than he gave."

The eloquent senator made the following comments :

This letter was written in May, 1868, and before the following March it distinguished author, without my public record assigned for his miraculous conversion, had joined those whom he had himself described as repudiators and extorters, and was aiding them, by the act of March, 1869, in demanding money in payment for their bonds vis-à-vis more valuable than they gave. He tried, in his recent speech in Maine to explain this letter. He said, in substance, if I saw a correct report, that he meant the payment of the bonds in greenbacks, when greenbacks should be equal to coin. The very opposite of this meaning, however, is contained in this letter, for he there speaks of money of different values, and denounces with great bitterness the man who would demand better money than he gave in exchange for his bonds.

Senator VOORHEES quoted, with approval, the following caustic critic-

ism of JOHN SHERMAN contained in a recent letter by WENDELL PHILLIPS:

"Like that pantos early Christian of Rome, who always took off his hat to the old statue of Jupiter, observing that 'there was no telling but what the old faith might come up again,' wide-awake, came John Sherman has always kept his bread buttered on both sides. It is the bread of all our public men, who has proclaimed, with catholic and generous indifference, that the bondholder who asks anything but greenbacks for his bonds is an extorter and a repeater (March, 1869) and, also, that any man who proposes to pay bonds in greenbacks is a repeater (1870). Can anything be more satisfactory? He is the broad-minded, accommodating statesman who preaches greenbacks to any other currency (February, 1862), and, indeed, would allow the issue of no other notes (May, 1861). And yet he is to be litigated or interrogated, you see—he thinks our present system of bank notes the nearest to ideal perfection of anything ever devised by man (1870)!" He is the exact, truthful and fair-dealer who (1870) asserts that there has been no contraction but an increase of currency, to the extent of nearly six millions since January, 1869, and he is also ready, like any master fiddler both ways to assure you in 1868 that 'our contention has been unexampled in the history of any nation,' and that "one hundred and forty millions have been withdrawn within two years, and that the people had then the right to be relieved from any further contraction." Now, how can any one object? "You pays your money and you has your choice."

The fact of the matter is that SHERMAN is one of the most consummate demagogues in the country, as is abundantly proven by his shifting, vacillating, temporizing course on the financial question.

The fact of the matter is that SHERMAN is one of the most consummate demagogues in the country, as it abundantly proven by his shifting, vacillating, temporizing course on the financial question.

is of JOHN SHERMAN, son of the late Senator PHILIPS.

Like that cautious early Christian at Rome, who always took his cue from old state of Jupiter, observing that "there was no telling but what the old fat might come up again," wide-awake, canny John Sherman has always kept his bread buttered on both sides. It is he alone, of all our public men, who has proclaimed, with catholic and generous indifference, that the bondholder who asks anything but greenbacks for his bonds is an extortioner and a repudiator (March, 1869); and, also, that any man who proposes to pay bonds in greenbacks is a repudiator! (1879). Can anything be more satisfactory? He is the broad-minded, accommodating statesman who prefers greenbacks to any other currency (February, 1862), and, indeed, would allow the issue of no other notes (May, 1874). And yet—not to be bigoted or intromaur, you see—he thinks our present system of bank notes the nearest to ideal perfection of anything ever devised by man! (1879)! He is the exact, faithful and fair-dealer who (1879) asserts that there has been no contraction but an increase of currency, to the extent of nearly six millions since January, 1879, and he is also ready, like any master fating both ways, to assure you in 1869 that "our contraction has been unexampled in the history of any nation," and that "one hundred and forty millions have been withdrawn in two years, and that the people had then the right to be relieved from any further contraction." Now, how can any one object? "You pays your money and you has your choice."

[Correspondence of the SENTINEL.] Cincinnati, Sept. 13, 1879.—Our gala week of processions, banquets and receptions has come to an end, the Lincoln Club reappearing on the scene with its annual festival and the presidential party left for Fremont, O., early Saturday morning. Now that the lights are out, the curtain down, the band gone, the girls departing, suppose we realize the other side.

The procession, with the exception of the military display, which was really superb, was not up to the expectations of all, and was much below the Sunday fest procession in pictorial effect. But three firms made a really fine display—Barkhardt's, the wagon dressed in Indian style, with a golden eagle, gold plated in crimson, her superb hair floating far below her waist, keeping watch over her treasures. George F. Otto &amp; Co. displayed a picture of the Iron Wheel Company were also fine. In a meeting of the association of western roads at Chicago, Wednesday, the division was ratified, and the question of allotment of freights was referred to Wheeler of the Northwestern, and Commissioner Pink. The terms of the agreement permit any member of the pool to withdraw upon giving forty days notice.

The sudden termination of the war between the American Union and the Western Union Telegraph Companies is regarded as somewhat significant. The compromise enables the American Union to prosecute its enterprise for a year without interruption from the Western Union, and it is thought that this concession would not have been made unless there was some secret understanding between Gould, who is at the bottom of the American Union enterprise, and Vanderbilt.

**Indianapolis Journal:** Quite a controversy has been carried on by correspondents through the columns of the New York Sun as to whether locomotives can and do attain a speed of a mile a minute. An apparently competent witness appears in the person of E. S. Ellis, a responsible citizen of Trenton, N. J. He recently rode to New York on one of the fast trains of the Pennsylvania Railroad, having with him a stop-watch marking seconds, such as is used for timing horses. With this he found that at one point the road train made five miles in 4 minutes 55 seconds, or at the rate of 60.97 miles an hour, while in another place it covered the track between two mile posts in 50 seconds, making the mile at the rate of 72 miles an hour, if the mile posts are a mile apart.

Poor Commissioner Pink has issued a circular giving notice that in consequence of the recent agreement between the railroads west of Chicago and St. Louis and their change of rates to Missouri River points, the through schedule for freights from New York to Kansas City, Leavenworth, St. Joe, Atchison and other points on the Missouri River via St. Louis, Chicago or Hannibal, will hereafter be as follows: First class—36¢ per 100 pounds, an advance of 40 cents. Second class—12¢, an advance of 30 cents. Third class—9¢ cents, an advance of 15 cents. Fourth class—7¢ cents, an advance of 7 cents. The usual difference in rates between New York and other seaboard cities will be observed.

How the Indian Logan Proved His Featly to the Americans.

**An Example of Bravery and Courage Worthy of All Honor.**

To the Editor of the SENTINEL: Having good reason to believe that the extract from McAfee's "History of the Late War in the Western Country," published in the SENTINEL of the 15th inst., has been read with interest by many of your patrons, it is proposed to furnish you with a copy of the book. Captain Logan, who was a faithful friend and ally of the Americans, it will be remembered that Logan undertook and successfully accomplished the daring task of a journey from Logansport to Fort Wayne to learn its condition and to recruit the besiegers, prior to Gen. Harrison raising the siege in August, 1812. The author says:

"Shortly after the expedition by Gen. Tupper to the Miami Rapids a tragic adventure occurred in the left wing of the army. Capt. John Bright, a Shawnee older, by the order of the General, was sent with a small party of his tribe to reconnoiter in the direction of the Rapids. He met with a superior force of the enemy than that place, by which he was so closely pursued that his men were obliged to disperse for safety. Logan, accompanied by his companions, Captain John and Bright Horn, arrived safe at Gen. Winchester's camp, where he faithfully reported the incidents of the encounter. But there were other persons in the army who suspected his fidelity and were communicating intelligence to the enemy. The result was that Logan could not endure the ungenerous charge. With the sensibility of a true soldier he felt that his honor should not only be pure and fine, but unscathed. He accordingly took his sword, dashed a court of inquiry, followed by a general assembly of a bold and generous spirit, he determined to prove by unequivocal deeds of valor and fidelity that he was culminatingly true to his country."

"On the 22nd of November, 1812, he proceeded to the Miami River, accompanied by the two Indians above named, and resolved either to bring in a prisoner or a scalp, or to perish himself in the attempt. When he had gone about ten miles down the north side of the Miami, he met with Col. Elliott, accompanied by Capt. Hayes, Gen. Sherman and others. Captain was too strong for him, and he had no chance to escape (four of them being on horseback) he determined to pass them under the disguise of a British officer. He accordingly accosted the British officer, and a friendly deposit was made to the general. Unfortunately one of them was Whisnean, a celebrated Pottawattomie chief, to whom the person and character of Logan were perfectly well known. He persisted, however, in his course, and told them he was going to the British. After conveying some time he protracted on his way, and Whisnean and all his emulators turned and went with him. As they traversed the rugged prairie and hills party closely together, the other Indians had promised about eight inches he passed to the British officer to seize and detain. The officer replied that they were completely in their power; that they attempted to run, they would be shot down. In fact, the Indians could easily run them down. This consultation was overheard by Logan, who had previously intended to go on possibly till night and then to escape, but he now formed the bold design of extricating himself by combat with double his number.

Bass ball: Boston 4, Cleveland 3; Providence 6, Cincinnati 2.

The boat race at Halifax, Wednesday, between Smith and Morris, 14 miles, was witnessed by 5,000 spectators. The water had a slight ripple but was in good condition. Both men were greeted with cheers. Both were dressed in blue jackets, drawers and caps. Smith's being light and Morris' dark. Morris won the toss and took the inside course. At 6:10 the word go was given; Morris took the water first and led the first half-mile, then both spurred. Smith gained, and turning the stake boat two seconds ahead led all the way down and won by two lengths. Time, about 21:35.

The Astley belt pedestrians met Wednesday and signed articles of agreement.

Cap. Logan had been taken prisoner by Gen. Logan of Kentucky, in the year 1788, when he was a youth. The general on parting with him had given him his pistol. But he preserved his honor at the cost of his life. His life would prove mortal. He lived two days longer, when he bore with unconquerable fortitude, and died with the utmost courage and resignation. "More firmness and consummate bravery was seldom displayed on the battlefield than that shown by this young Indian." So wrote Gen. Winchester in his report to the commanding general. "He died nobly, and I sincerely trust that the British had suffered loss for his sake." He had been very serviceable to his cause by acting as a guide and spy. He had gone with Gen. Hull to Detroit, and with the Kentucky troops that marched to the relief of Fort Wayne.

## "JIM JAMS."

A Terrible Scene at Police Court this Morning.

The Blasts who Paid their Respects to the Mayor.

J. P. Jones was up this morning for the purpose of explaining why he was disorderly last night. Their explanation was doubtless very satisfactory to Mr. Jones, but the mayor couldn't see it in the same light, and fined him \$3.

Thomas Harrison was the next unfortunate. He was found in company with Sarah Johnson in a way not provided for in the statutes. The failed to turn up at the proper time, but a \$10 note apiece appeared, the dignity of the law was satisfied and the matter was dropped.

Wm. Higgins tried to be tried, but the presence of "stinks and other anomalies" in the air prevented him from making any distinct revelations as to the why and wherefore. William was up last Monday, but was let go on condition that he leave town at once. He promised, but failed. The mayor told him that ten days in the jail would be the thing. Snakes and fire, however, would appear to his bewildered imagination, and what at first appeared to be a game of "possum" soon developed into a genuine case of Jim Jams.

The unfortunate was taken into the mayor's office and laid down on the floor, where his attack terminated in an epileptic fit of the worst kind.

He gave a single scream threw out his hands and rolled over on the floor in terrible convulsions. His face assumed a purple hue, his lips got black as coal, while froth issued from his mouth and nose, a scar on his cheek burst out bleeding and altogether he presented a terrible spectacle. The marshalls relieved him as much as possible, and in fifteen minutes he was sleeping.

He was afterwards taken to jail where he received medical treatment.

Another farmer from the same township, who entered a horse, says he knows of no person in his section of the county who does not expect to attend about all of the week.

Mrs. Laura Ream, the well known correspondent of the Cincinnati Commercial; Mrs. J. E. Cobb, wife of the city editor of the Indianapolis Journal, and Mrs. J. C. Bacon, a delegate from the State Board of Agriculture, attended at the annual meeting last January, will all be here early in the week to write up our fair. They will be domiciled at the Robinson, the rag man, on Calhoun street, on an execution in favor of certain parties whom he was indebted to.

The Truth of History Vindicated. To the Editor of the SENTINEL:

I would like to make a statement concerning the row at Manok's saloon on last Monday night. From the various statements in the papers it would seem that Mr. Young was a very innocent party. The facts of the case are that on the evening named, Baily and a companion went to Manok's saloon and got two bottles of mineral water for some girls they had with them. Manok accused the boys of taking some glasses and a dispute occurred, when Mr. Young stepped up and called one of the boys a s--- of a b---, which was immediately taken up by the boys. This resulted in Baily being struck on the head with a billiard cue, after which Mr. Manok closed the saloon. The boys then went to Anderson's Hall and supposed that the row was over, when Mr. Young again appeared upon the scene and was determined to keep the ball rolling, which he did until he succeeded in getting badly used up. And Mr. Young kept his mouth shut, there would have been no further trouble, and according to eye witnesses he only got what he deserved.

## THE RAILROADS.

The Pittsburgh pay car has gone to Chicago.

Engine 161 took the Pittsburgh pay car west to-day.

New bridges are being built all along the line of the Miami road.

The body of John Denin, the Wabash brakeman, who was killed at Lafayette Monday, was taken to Macon, Ill., for interment.

The Grand Trunk of Canada, the Wabash and the Chicago and Eastern Illinois railways have in conjunction bought a block of ground on the corner of Dearborn and Van Buren streets, Chicago, for which they paid \$60,000. This will be the site of their union depot upon entering the city.

Since the season opened, about the 10th of July, the Wabash has delivered in Toledo on an average about 450 car loads of wheat per day. It is estimated that this average will keep up until the 10th of October, giving a total of 90,000 cars in three months. If all these cars were in one train, it would be over 230 miles long.

The two "Royal" engines just completed at the Wabash shops at Springfield, Ill., are said to be the largest and most powerful engines in the west and will pull fifteen coaches at the rate of forty-five miles an hour. They weigh thirty-eight and a half tons each; cylinder, 12x25, and the wheels are five feet ten inches in diameter. A man can stand erect in their fire boxes. These engines are intended to be used in pulling trains Nos. 1 and 2.

A New York special to the Chicago Times says:

It is evident that the policy of the Wabash line will not be very aggressive for the present. The new manager is regarded as very conservative in his views, and has doubtless had a full understanding with respect to the affairs of the consolidated company should he conduct it. There is an immense business to be done along the line of the Wabash, and there is no reason why it should not do more than numerically, but it is also evident that the part of the Wabash, its administration, is to trunk-line pool, regarded as almost certain, and this will give the line a firm footing at the outset.

Speaking of the new St. Louis, Wabash and Pacific line, the Toledo Commercial says: Nothing as yet has been decided as to who will be at the head of the passenger and freight departments, but they will be selected from the chiefs of these departments on the two roads. There will be but few, or no dismissals of the present employees of either of the roads, as about the same force will be required to operate the consolidated lines. The new road will be 1,300 miles long, the Mississippi dividing it about half and half, and St. Louis will consequently become the headquarters of the company. One of the general officers will probably remain in this city, and it is reasonable to conclude that this will be Col. Andrews, one of the general superintendents. It is safe to conclude that Gen. Wagner Swaine will remain general solicitor of the roads, as it is believed that he at present has the general direction of all legal affairs in the west for Mr. Gould.

Smith in Limbo.

A week ago last Saturday the house of Henry Brower, of Madison township, was entered by some then unknown person and a number of articles of clothing, consisting of hat, pants, boots and a number of ornaments, etc., taken. Suspicion pointed to a man named Smith, loafing around that vicinity, but as nothing definite could be ascertained, no arrest was made. Trustee James Fry was in the city yesterday and met Smith on the street and by some peculiarity recognized the hat and boots which he wore as being the property of his neighbor, Mr. Brower. Mr. Fry requested a friend to "keep an eye on him" while he went after an officer. Deputy Sheriff Wilkinson was found and made the arrest, and Smith was taken to jail. He there confessed that the boots were stolen property, but did not acknowledge the theft.

## "JIM-JAMS."

A Terrible Scene at Police Court this Morning.

The Blots who Paid their Respects to the Mayor.

J. P. Jones was up this morning for the purpose of explaining why he was disorderly last night. They explanation was doubtless very satisfactory to Mr. Jones, but the mayor couldn't see it in the same light, and fined him \$3.

Thomas Harrison was the next unfortunate. He was found in company with Sarah Johnson in a way not provided for in the statutes. The failed to turn up at the proper time, but a \$10 note apiece appeared, the dignity of the law was satisfied and the matter was dropped.

Wm. Higgins tried to be tried, but the presence of "snakes and other anomalies" in the air prevented him from making any distinct revelations as to the why and wherefore. Wm. Higgins was up last Monday, was let go on condition that he stays away at once. He promised, but failed. The mayor told him that ten days in the jail would be the thing. Snakes and fire, however, would appear to his disordered imagination, and what at first appeared to be a game of "possum" soon developed into a genuine case of Jim-jams.

The unfortunate was taken into the mayor's office and laid down on the floor, where his attack terminated in an epileptic fit of the worst kind. He gave a single scream threw out his hands and rolled over on the floor in terrible convulsions. His face assumed a purple hue, his lips got black as coal, while froth issued from his mouth and nose, a soar on his cheek burst out bleeding and altogether he presented a terrible spectacle. The marshalls relieved him as much as possible, and in fifteen minutes he was sleeping. He was afterwards taken to jail where he received medical treatment.

## THE FAIR.

Everything Promises a Successful Exhibit.

Items About the Show Gathered Here and There.

The fair opens next Monday.

A good series of races is expected. Every facility will be afforded to exhibitors.

Applications for space are pouring in every day.

The judges for the races have not been selected.

Twenty thousand people are expected on Tuesday.

The grounds are being placed in excellent condition.

The balloon ascensions will take place next Tuesday.

The horses for the races are beginning to come to the surface.

Nearly every business man in the city will exhibit at the fair.

Very little business will be done about the court house during the fair.

All the professional and most of the amateur florists of the city will exhibit.

J. H. Woodward "Jayhawk" of the Cincinnati Enquirer, has his passport for the Fort Wayne fair.

The show of machinery will be unusually fine from abroad, on account of which it is said some dealers at home will not exhibit. That must be a mistake.

Everything is booming for the fair; entries coming in rapidly from home and abroad, by letter, telegraph and personal application. One farmer from Springfield township made twenty-one entries yesterday, and his wife has several to make yet.

Another farmer from the same township, who entered a horse, says he knows of no person in his section of the county who does not expect to attend about all of the week.

Miss Laura Ream, the well known correspondent of the Cincinnati Commercial; Mrs. J. E. Cobb, wife of the city editor of the Indianapolis Journal, and Mrs. J. C. Bacon, a delegate from the State Board of Agriculture, appointed at the annual meeting last January, will all be here early in the week to write up our fair. They will be domiciled at the Robinson, where the accomplished and popular owner and manager, H. W. Robinson, will see that they are nicely provided for.

## THE RAILROADS.

The Pittsburgh pay car has gone to Chicago.

Engine 161 took the Pittsburgh pay car west to-day.

New bridges are being built all along the line of the Miami road.

The body of John Dunn, the Wabash brakeman, who was killed at Lafayette Monday, was taken to Macon, Ill., for interment.

The Grand Trunk of Canada, the Wabash and the Chicago and Eastern Illinois railways have in conjunction bought a block of ground on the corner of Dearborn and Van Buren streets, Chicago, for which they paid \$60,000. This will be the site of their union depot upon entering the city.

Since the season opened, about the 10th of July, the Wabash has delivered in Toledo on an average about 450 car loads of wheat per day. It is estimated that this average will keep up until the 10th of October, giving a total of 39,500 cars in three months. If all these cars were in one train, it would be over 230 miles long.

The two "Royal" engines just completed at the Wabash shops at Springfield, Ill., are said to be the largest and most powerful engines in the west and will pull fifteen coaches at the rate of forty-five miles an hour. They weigh thirty-eight and a half tons each; cylinder, 12x25, and the wheels are five feet ten inches in diameter. A man can stand erect in their fire boxes. These engines are intended to be used in pulling trains Nos. 1 and 4.

A New York special to the Chicago Times says:

It is evident that the policy of the Wabash line will not be very aggressive for the present. The new manager is regarded as a man of great ability and experience, and has doubtless had a full understanding with the leading directors as to the manner in which the affairs of the consolidated line should be conducted. The Wabash is an immense business to be done all along the line of the new road, and there is no doubt that the Wabash will be successful.

A truckman to day, while hauling a load of flax seed for Case & Humphrey, upset his load on Clinton street, about half of which was dumped into the canal. His wagon was broken, and seed, wagon, driver, etc., were spread around rather conspicuously.

A little son of J. Keppler, living on Force street, got a piece of peanut shell in his windpipe, this afternoon, which nearly choked him to death. It was successfully removed by Dr. Sweringen.

The Wayne Street M. E. Church social will hold forth to-night at the residence of Bro. Caleb Remond, on Griffith street.

W. C. Cartwright, John Phelps and James English left to-day for Purdue University. The two latter have received the appointment from the state.
